

BIỂU PHÍ ÁP DỤNG CHO SẢN PHẨM BẢO HIỂM TỬ KỲ DÀI HẠN

(Được phê chuẩn theo công văn số: 127/BTC-QLBH của Bộ Tài chính ngày 05/01/2012)

1 **Phí bảo hiểm**

Một mức phí bảo hiểm đồng nhất sẽ được áp dụng cho mỗi tập hợp khách hàng. Mức phí bảo hiểm được tính toán dựa trên các đặc điểm riêng của tập hợp khách hàng (thời hạn bảo hiểm bình quân, độ tuổi tính phí bình quân của Người được bảo hiểm).

Phí bảo hiểm hàng tháng được đóng vào đầu kỳ và áp dụng cho tất cả các độ tuổi từ 0 đến 75 tuổi.

Phí bảo hiểm một lần được đóng vào đầu kỳ và áp dụng cho các độ tuổi từ 0 đến 60 tuổi.

Phí bảo hiểm được làm tròn theo nguyên tắc làm tròn số tối đa đến đơn vị nghìn đồng.

Biểu phí bảo hiểm bao gồm biểu phí có hoa hồng và biểu phí không có hoa hồng. Các biểu phí bảo hiểm định kỳ hàng tháng và phí bảo hiểm một lần được chỉ rõ trong tài liệu biểu phí bảo hiểm.

Lưu ý: Tuổi tính phí là độ tuổi tương ứng với tỷ lệ tử vong bình quân của độ tuổi đó, được tính toán dựa trên các đặc điểm của tập hợp khách hàng được bảo hiểm.

Tuổi bảo hiểm trung bình và Thời hạn hợp đồng trung bình của tập hợp khách hàng được tính toán lại mỗi năm. Nếu tuổi bảo hiểm trung bình và thời hạn hợp đồng trung bình trong thực tế của tập hợp khách hàng khác xa so với tuổi bảo hiểm trung bình và thời hạn hợp đồng trung bình đang áp dụng tính phí thì Công ty có thể áp dụng mức phí bảo hiểm mới cho độ tuổi bảo hiểm trung bình và thời hạn hợp đồng trung bình thực tế để bảo đảm khả năng thanh toán.
